

Let us help you help your patients.

KaryForward is a comprehensive patient support program dedicated to providing assistance and resources to patients and their caregivers.

KaryForward provides access to:

INSURANCE COVERAGE*

- Support with claims assistance, prior authorizations, benefits investigations, and appeals.
- QuickStart Program – provides medications for patients who experience an unexpected delay or interruption in coverage.
- Bridge Program – provides eligible patients an emergency supply of a Karyopharm medication at no cost.

FINANCIAL ASSISTANCE*

KaryForward can help patients with the cost of medication. If eligible, patients may qualify for the Copay Program or

to receive their Karyopharm medication at no cost through the Patient Assistance Program.

SUPPORT

The KARE patient support team offers patients or their caregiver 1:1 support which may include:

- Answering questions about what to expect while taking Karyopharm medications.
- Providing psycho-social support for patients and their caregivers.

The KARE patient support team does not assist patients in making decisions regarding their treatment nor does it replace care provided by your practice.

Enroll Your Patients Today!

Once you determine a Karyopharm medication is necessary for your patient, you and your patient will need to **complete and sign the KaryForward Enrollment Form.**

This form can be completed online at **KaryForward.com** or downloaded and faxed to 1-833-589-1603.

 **Questions about the program or patient resources?**
Ask for a KaryForward presentation by the Payer Account Team.

**All programs and support are subject to eligibility criteria.*

KARE PATIENT SUPPORT

Sandra Brodsky
BSN RN

Sandra graduated from the University of Louisville. She has an extensive oncology background, having worked with medical, surgical, and radiation oncology, as well as pain management and bone marrow transplant (BMT) patients. Sandra is licensed as a registered nurse in all 50 states as well as the District of Columbia.

Sandra believes that patient education is of critical importance in the oncology setting. Witnessing patients experiencing medication-related side effects helped increase her knowledge of what initial symptoms may look like. Sandra enjoys encouraging patients to be their own best health advocates and instills in them the knowledge and ability to promote their own wellness. ●

KARE PATIENT SUPPORT

Natalie Pawlicki
MSN

Natalie received her MSN from Marquette University in Milwaukee, WI. She began her nursing career as an oncology nurse working with Onco360 and CareMed Specialty Pharmacy, continuing to serve the same patients she had worked with previously as a pharmacy technician and financial advocate.

Natalie has been working with oncology patients for thirteen years, both within pharmacy settings, as well as the outpatient oncology clinics at NorthShore University HealthSystem in Illinois. Throughout her career in healthcare, Natalie has maintained a passion for helping patients and caregivers with complex health needs. ●
